ADVANCE SALE SPRING 1943

10 SUMMER BLOOMING IRIS \$2.00

They commence to blossom after the group on the inside of this folder have finished flowering, and thus extend the Iris season for about 30 days. They are the most showy of all Iris, with huge blossoms often as big as a dinner plate. There are soft pastel colors to gorgeously brilliant tones, solid colors, striped and blended effects. While the individual plants will be unlabelled, the collection will include a fine color range and some of the latest and finest specimens. Early spring is the best time to plant them.

Strong Flowering Size Plants
10 for \$2.00; 15 for \$ 2.75
50 for \$7.50; 100 for \$13.50

12 WORLD'S FINEST \$2.00 SIBERIAN IRIS

Including varieties that originally sold at \$5.00 to \$25.00 a plant. This very unusual mixed unlabelled collection will contain some of the finest Siberian Iris obtainable anywhere in the world at any price. They are the most free flowering of all Iris. One plant soon makes a clump that will produce hundreds of blossoms. They flower gloriously in full sun or partial shade, in a wet or dry spot and in any ordinary garden soil. Early Spring is the best time to plant them. Hardy anywhere. Strong Flowering Size Plants.

12 for \$2.00; 25 for \$3.75
50 for \$6.50; 100 for \$12.00

Send Check or Money Order with the order. No shipments are made C.O.D., as we have found it very unsatisfactory. All shipments will be sent by express, the small express charge to be paid to the express company on delivery of package. The Iris on the inside of this folder will be sent direct from my Iris Ranch at Grandview, Washington; everything else will be sent from my nursery in New Jersey.

1943 SPRING CLEARANCE SALE — “LONG SEASON” IRIS COLLECTION

The Iris in This Field

at my Iris Ranch at Grandview, Wash., were completely closed out in a sale started last spring. This field, containing millions of Iris Blossoms when in bloom, was a never - to - be - forgotten sight, worth traveling across the continent to see.

“SEEING IS BELIEVING”—AND AS YOU CANNOT TRAVEL TO OUR IRIS RANCH AT GRANDVIEW, WASH., WE BRING PART OF THE RANCH TO YOU, SO THAT YOU MAY SEE FOR YOURSELF HOW LUXURIANTLY THEY FLOWER AND HOW PROFUSELY THEY WILL BLOSSOM IN YOUR OWN GARDEN.

Be
Lucky!

YOU MAY SELECT FREE PLANTS TO THE VALUE OF ONE-HALF THE AMOUNT OF YOUR ORDER—IF YOU ORDER AT ONCE

Have These Gorgeous Iris Bloom in Your Garden This Season, By Placing Your Order At Once

This group of Iris will furnish about ten weeks of blossoms. It includes the newer Double Duty Iris, which flower twice a year, first in the early spring ahead of the usual Iris Flowering Season, and then again in the fall, after all other Iris have finished blooming. It also contains many of the unusual Hardy Pogocyclus Hybrids, crosses of two distinct families, which produce blossoms as different from other Iris as though they came from another planet. Then of course there is included a large number that flower during May and June, these having been selected by me after growing and testing more than 5,000 varieties, retaining only the best in each color range.

HERE IS THE WAY TO SELECT YOUR FREE PLANTS

SELECT \$ 2.00 WORTH OF IRIS AT REGULAR PRICES—THEN ADD \$ 1.00 WORTH FREE
SELECT 3.00 WORTH OF IRIS AT REGULAR PRICES—THEN ADD 1.50 WORTH FREE
SELECT 4.00 WORTH OF IRIS AT REGULAR PRICES—THEN ADD 2.00 WORTH FREE
SELECT 5.00 WORTH OF IRIS AT REGULAR PRICES—THEN ADD 2.50 WORTH FREE
SELECT 10.00 WORTH OF IRIS AT REGULAR PRICES—THEN ADD 5.00 WORTH FREE
SELECT 20.00 WORTH OF IRIS AT REGULAR PRICES—THEN ADD 10.00 WORTH FREE
SELECT 50.00 WORTH OF IRIS AT REGULAR PRICES—THEN ADD 25.00 WORTH FREE

MAKE YOUR OWN SELECTION, OR IF YOU PREFER, SEND ME THE AMOUNT OF MONEY YOU WISH TO SPEND AND I WILL MAKE THE SELECTION FOR YOU, INCLUDING THE FREE PLANTS. SMALLEST ORDER ACCEPTED \$2.00. ALL SHIPMENTS MADE BY EXPRESS, the small express charges to be paid by the purchaser on delivery of package. No shipments sent C. O. D.

In order to receive the benefit of this free plant offer, the Iris ordered and the free plants must be selected only from the extensive group of 165 choice varieties here listed, as these are the only varieties growing in this field that we wish to vacate and in fact the only varieties that I have for spring delivery. I expect to be able to fill all orders, but must reserve the right to substitute an equally good or better variety if any varieties ordered are sold out.

THIS FREE PLANT OFFER POSITIVELY EXPIRES MAY 1st. NO FREE PLANTS AFTER THAT DATE

Another Field

Adjoining this one, but Twice As Large, is now to be vacated, and the Iris in it are now offered for sale in this Special Spring Clearance Sale. Many of the World's most gorgeous varieties are included in this sale.

Lovely Amaryllis Hybrids

(See Illustration at Left)

The illustration shows the flower stalks and flowers produced by one bulb. The huge colorful lily-like blooms will make excellent potted plants for your window. The individual blossoms are often 6 or more inches across. Plant with half of the bulb above ground, one bulb to a pot. Easy cultural directions sent with each order. There are solid colors, striped and blended effects, from white to the most brilliant red imaginable. There are no more gorgeous flowers for indoor culture.

STRONG FLOWERING SIZE BULBS
35c each; 3 for \$1.00; 6 for \$1.75
12 for \$3.00; 100 for \$20.00

REGAL LILY—This Lily is well named, as it is a flower of Regal Splendour. The flowers are of immense size and great beauty, being of snowy whiteness, much like an Easter Lily, but with an attractive yellow flush at the centre, and the outside flushed soft pink. It is delightfully perfumed, having the sweet fragrance of the Jasmine. The flower stalks are 3 to 4 feet tall and one stalk will often make a complete bouquet. And it is one of the hardest of all Lilies and easiest to grow. Flowers in July. Flowering Size Bulbs—35c each; 3 for \$1.00; 12 for \$3.50; 25 for \$6.50; 100 for \$25.00.

SUNSET LILY—One of the most spectacular of all Lilies, often producing 15 to 20 flowers to a stalk, up to seven feet in height when established. The color is deep orange, spotted maroon, with the tip of the petals deep scarlet. Hardy in sun or partial shade. July Flowering. Fine strong flowering size bulbs—35c each; 3 for \$1.00; 12 for \$3.50; 25 for \$6.50; 100 for \$25.00.

ELEGANS LILY—This is the finest rock garden or bedding Lily, being just 12 to 18 inches tall, with the attractive saucer-shaped blossoms facing up, giving the most perfect bedding effect. It is a profuse bloomer and the color is red, spotted maroon. Nice flowering size bulbs—35c each; 3 for \$1.00; 12 for \$3.50; 25 for \$6.50; 100 for \$25.00.

DOUBLE TIGER LILIES—An unusual DOUBLE form of the Tiger Lily, with large attractive rosette-like flowers. Very handsome and the double form is quite rare. 35c each; 3 for \$1.00; 12 for \$3.50; 25 for \$6.50; 100 for \$25.00.

1 EACH OF THE ABOVE FOUR LILIES \$1.25; 3 EACH \$3.50; 12 EACH \$12.50
25 EACH \$24.00; 100 EACH \$90.00

“Long Season” Iris Collection

1 EACH OF THIS COMPLETE LIST \$25.00
OF 133 SUPERB VARIETIES

TOTAL VALUE \$42.40

No Additional Free Plants with this Collection at this Price, as the Free Plants are Included

Or You May Make Your Own Selection With Free Plants as Explained on the Opposite Page

This Collection will Furnish about 10 Weeks of Blossoms

EACH PLANT WILL BE LABELLED

Tritoma Hybrids (Red Hot Poker Plant)

TRITOMA “PFITZERI” (See illustration at right)—More commonly known as the Torch Lily or Flame Flower, or Red Hot Poker Plant. The rich orange scarlet flowers are among the most unusual and attractive in the garden. They are always in big demand as cut flowers and are used extensively by florists to “point up” an artistic bouquet or basket of flowers. “Pfitzeri” is the finest of the Tritomas and should be in every flower garden. Blooms August to October. 50c each; 3 for \$1.25; 6 for \$2.25; 12 for \$3.75.

PLANTAIN LILY—The variety I am offering, "Hostea Subcordata Grandiflora Alba," is the finest of all Plantain Lilies with highly ornamental foliage, and with large, snow-white, fragrant blossoms resembling Easter Lilies and almost as large. These Plantain Lilies are so hardy that they will grow anywhere, in sun or shade, with no care excepting to keep down the weeds. They are equally attractive in a wild garden, or in a border, or in a bed by themselves. Wherever planted they will take care of themselves. Do not confuse this variety, which is extremely scarce, with ordinary Plantain Lilies. Bloom Aug.-Sept. Strong flowering size plants, 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.50; 100 for \$50.00.

BLUE VERONICA—There are no more lovely BLUE flowers for the garden than these spires of brilliant blue. They are about 2 feet tall, hardy, continuous bloomers, and will grow anywhere. 3 for 85c; 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.

HOLLYHOCKS in the modern style are not to be compared with the old-fashioned Hollyhocks of Grandmother's garden. There are no finer hardy plants than these showy, towering spires of delightful pink, mauve, maroon, red, scarlet, bright rose, salmon, yellow, white, etc. One stalk makes a huge bouquet. Strong plants, assorted colors, 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 100 for \$25.00.

AQUILEGIA (Columbine)—Every gardener loves the dainty Columbine. I have a grand assortment in a dazzling array of colors, in the finest new long-spurred hybrids, including all of the finest types originated to date. Assorted colors only, 3 for 85c; 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.

HARDY SWEET PEAS—They come up year after year without care, each plant covering several feet of trellis or low fence. Great quantities of flowers are produced every year. The flowers grow in "clusters," one cluster forming a nice corsage bouquet. Pink, Red, White; sold in assorted colors only. 50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

FINEST NEW EVERBLOOMING HARDY VIOLAS—This race resulted from Violets being crossed with Pansies, giving us the beauty of the Pansies, with the hardiness of violets, with flowers in bloom all summer and fall, until killed by severe frost. Some of them are larger and even finer than Pansies. Stock limited. All colors assorted while they last, 3 for 85c; 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.

LIATRIS—Also known as "Blazing Star" or "Gay-feather." A superb hardy flower especially useful to florists. An excellent cut flower or garden subject, with beautiful feathery lilac flowers growing along a delphinium-like stalk. Nothing will attract more attention in the garden. The flower stalks are 3 to 4 feet tall, covered with flowers for a long period during mid-summer. They will thrive in sun or shade, in any ordinary garden soil. Should be planted in groups of 3 or more, planted 8 inches apart for best effect. 3 for 85c; 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.

FRUIT TREES

"ANOKA" APPLE — Best for the Home Garden

Bears Fruit the First or Second Year after Planting. Bears large crops of delicious apples EVERY YEAR. An excellent Summer Eating Apple and a superb cooker. Disease resistant and hardy even in the coldest northern states and up into Canada. No other apple can combine the wonderful flavor, early bearing, and great productiveness of the Anoka Apple. The fruit is of good size and beautifully striped red. There is no other apple like Anoka. It is a new apple and the result of many years of hard work and thousands of crosses. It was the one selected as the culmination of all these efforts, as combining all of the best points of hardiness, early bearing, productive-ness, and superb flavor. Being of medium dwarf habit it is the best apple for the small garden. The size, color, and flavor of Anoka Apple are sure to make it a great favorite. In addition to its abundant crop of delicious fruit, nothing excels it in beauty when it is loaded down with blossoms in the springtime. It is an investment, not an expense, as every tree will pay for itself several times over each year in delicious fruit. Husky Trees, ready to bear—\$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$12.00.

"RED DELICIOUS" APPLE—The Red Delicious Apple is so well known that it is hardly necessary to say anything about it. It is the one fancy apple that outsells all others on the high class fruit stands. Color red, fruit sweet, juicy, and delicious. Handsome spring blossoms. Hardy and very productive at an early age. Strong 4 to 5 foot, 4 year old trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50; 100 for \$45.00.

"CRIMES GOLDEN" APPLE—Excellent yellow apple of large size, crisp and juicy and mild sub-acid flavor. Handsome spring blossoms. Hardy anywhere. Strong 4 to 5 foot, 4 year old trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50; 100 for \$45.00.

"STAYMAN'S WINESAP" APPLE—The favorite winter apple, with handsome firm fruit of the most delicious flavor, slightly tart and full of juice. Excellent eating or cooking apple. Handsome spring blossoms. Hardy anywhere. Strong 4 to 5 foot, 4 year old trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50; 100 for \$45.00.

"GAGE ELBERTA" PEACH—A rich, sweet, juicy, golden yellow freestone of delicious flavor. The rich golden yellow skin having a dark red blush on the sunny side. The fruit is large and it is one of the best all-round Peaches grown. Hardy anywhere. Huge 5 foot trees ready to bear, \$1.50 each; 3 for \$3.75; 6 for \$6.50; 12 for \$12.00; 100 for \$75.00.

"BELLE OF GEORGIA" PEACH—The State of Georgia is famous for its superb peaches and "Belle of Georgia" is the best all-round white freestone Peach grown in Georgia or anywhere else. The Peaches are large, of delicious flavor and have an attractive blush, and the trees like all others offered in this sale, are hardy and productive. PEACH TREES ARE THE MOST ATTRACTIVE AND ORNAMENTAL TREES FOR EARLY SPRING BLOSSOMS AND WILL FURNISH MANY TIMES THEIR COST IN DELICIOUS FRUIT EACH SEASON. Huge 5 ft. trees, ready to bear, \$1.50 each; 3 for \$3.75; 6 for \$6.50; 12 for \$12.00; 100 for \$75.00.

NEW PLUM-CHERRY HYBRID—Something entirely new. The fruit is of a delicious sweetness and in favorable seasons will bear fruit the year after planting. Color of skin and fruit rich intense purplish black-red. Hardy everywhere even in the most severe climate of our extreme Northern States and Canada. Branches from the ground up in shrub form so that all fruit is within reach from the ground. A prodigious bearer, as the strength of the plant all goes into producing fruit and not surplus wood, the limbs and branches being covered with a solid mass of blossoms in early spring, followed by the most delicious fruit. Strong 3 to 4 foot trees, ready to bear fruit, \$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$12.00.

MULBERRY—The Mulberry is one of our most attractive trees. It produces great quantities of delicious berries, much like a coreless, seedless blackberry. Aside from producing a delightful shade tree and providing great quantities of berries for the table, they will bring many attractive birds to your garden as the fruit is a favorite "tidbit" of all sorts of birds. I have a limited supply of nice sturdy, 3 to 4 ft. trees, at \$1.50 each; 3 for \$3.75; 6 for \$6.50; 12 for \$12.00; 100 for \$60.00.

NUT TREES

WALNUT TREES—\$250,000 for 80 acres of Walnut Timber. Very few people realize the timber value of walnut trees, yet during the last World War a farmer in Iowa sold his 80 acres of Walnut Timber from trees planted 40 feet apart for TWO HUNDRED AND FIFTY THOUSAND DOLLARS. He had meanwhile been making a living from them selling the nuts by the carload in the Chicago market. Even during peace times, as high as \$450.00 has been paid for a single tree. I have for many years been advocating the planting of spare land in Walnut trees for future profit. Once planted they require little or no care.

For the home garden there is no finer looking or more useful shade tree. It is therefore a three purpose tree; while it is developing into a beautiful shade tree and producing luscious nuts, it is also increasing in timber value from year to year. The timber is used for gun stocks and therefore demands a high price during war times; and it is also scarce enough to demand a high price during peace times for high class furniture. So whether you wish one or more shade trees for the home garden, or have some spare land somewhere and have an eye to the future, I again recommend "PLANT WALNUT TREES."

FINE 3 to 4 foot sturdy trees, \$1.25 each; 3 for \$3.25; 6 for \$6.00; 12 for \$10.50; 100 for \$50.00.

BLIGHT RESISTANT CHESTNUTS—When I first came to Long Island 35 years ago it abounded with huge stately Chestnut trees, nature's most magnificent shade trees. Then the blight came, one of the many foreign pest importations, and as a result every last chestnut tree was wiped out, not only on Long Island, but throughout the entire country. The United States Department of Agriculture thereupon began a very thorough research to determine what might be done about it. The result was the discovery in China of a blight-resistant Chestnut Tree, producing nuts of exceptionally fine flavor. I am pleased to be able to offer this year some of these blight-resistant Chestnut Trees, four years old at \$1.25 each; 3 for \$3.00; 6 for \$5.00; 12 for \$9.00; 100 for \$50.00.

BUTTERNUT TREES—A tree of the walnut family with elongated nuts that have a delicious sweet kernel. They are also often pickled when young. The hardwood is valuable and is used for interior trim. The tree is highly ornamental and interesting. \$1.25 each; 3 for \$3.00; 6 for \$5.00; 12 for \$9.00; 100 for \$50.00.

SHADE and ORNAMENTAL TREES

WHITE BIRCH—Winter or summer the snow white bark of the Canoe Birch is a delight in any garden or landscape. For best effect they should be planted in groups of several trees a few feet apart, the number depending upon the space available. I have some extra fine, husky trees available at \$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00; 100 for \$60.00.

KENTUCKY COFFEE TREE—A specimen that is now 40 ft. high planted by me as a tiny tree 20 years ago, is the pride of my home garden. I have never known anyone who has seen it who was not fascinated by it. A full grown tree grows 100 feet high. The foliage is as artistic as the finest fern. It belongs to the Pea family, producing greenish white flowers in large clusters at the end of the branches, followed by heavy pods like lima beans, inclosing mahogany colored beans that take polish like a bead. The trees should be planted while quite young. Nice young trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

GINKGO—A native of China, and the one remaining specimen of a prehistoric race of trees that lived when the Dinosaur roamed the earth. The foliage resembles the leaf of a maiden hair fern, and the tree therefore resembles a huge fern tree. The foliage is leathery and the tree is free from insect pests and diseases. Perhaps that is the reason the species has survived through the ages. The tree is of upright growth and eventually reaches the enormous height of 120 feet. I have a limited supply of young trees of this interesting species for sale at \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

GOLDEN RAIN—One of our most beautiful and least known shade trees, loaded with golden yellow clusters of flowers in the spring. \$2.00 each; 3 for \$5.00; 6 for \$10.00.

A Young Anoka Apple Tree Bearing Fruit

The Graceful Babylon Weeping Willow

White Birch

SUPER - WISTERIA — Strong robust flowering size plants ready to bloom. All plants are grafted and grown from flowering wood, therefore every plant will furnish a great profusion of bloom just as shown in the illustration. **WHITE or PURPLE**, your choice, \$1.50 each; 3 for \$4.00; 6 for \$7.50.

EVERBLOOMING CLIMBING ROSES — PLANT THESE EARLY FOR BEST RESULTS. Climbing Talisman Climbing Red Radiance Climbing Pink Radiance Climbing Pres. Hoover Climbing Mary Lovett (White)

\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50

DOGWOOD TREES—Are always attractive in the spring when they are loaded with blossoms; during the summer when their foliage is always highly attractive, and in the fall when they are the first to change to a brilliant red.

Single White Flowering—\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.

Red Flowering—The most handsome of all. \$2.50 each; 3 for \$6.50; 6 for \$12.00; 12 for \$20.00.

MOCK ORANGE—Extremely ornamental and showy. A rather large shrub that is literally covered with big sweet-scented, snow white blossoms in late spring. Huge specimens, \$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00; 25 for \$17.50; 100 for \$60.00.

TULIP TREE—One of our finest hardy shade trees, belonging to the magnolia family, having attractive bluish-green foliage and bearing in May or June large greenish-yellow flowers, with an orange base, followed by long cone-shaped fruit. Large, extra strong, fine trees, \$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$13.50; 25 for \$25.00; 100 for \$85.00.

"HUGONIS" Shrub Rose—"The Golden Rose of China." Every twig is covered with sparkling yellow flowers, just like the illustration above, during May and June. The bush grows 6 to 8 feet tall and is highly ornamental at all times, the pendulous branches being covered with fine lacy foliage. Hardy as an Oak. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

DOUBLE PINK FLOWERING ALMOND—This is in my opinion the very finest of the early flowering shrubs. The artistic pure pink blossoms are like pompon chrysanthemums and they are produced in the greatest profusion, as shown by the above illustration. There is nothing more beautiful. They are easy to grow and sub-zero hardy. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

HYDRANGEA ARBORESCENS GRANDIFLORA—This shrub is well known for its great profusion of late summer and fall bloom. It can be used as a specimen shrub, as illustrated above, or as a hedge or foundation planting. Extra large specimen plants, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00; 25 for \$15.00; 100 for \$50.00.

SALVIA AZUREA (Blue Sage)—Extremely hardy, with delightful rich sky-blue flowers generously produced summer and fall. There is nothing nicer where blue flowers are wanted. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.50; 100 for \$18.00.

HEMEROCALLIS—Also known as "Day-lilies." They are as handsome as the finest Lilies, sub-zero hardy, bloom in the greatest profusion, will grow anywhere and require little or no care. Many are delightfully fragrant. I have one of the finest collections in the world. A grand assortment of 6 different varieties, each labelled, for \$2.00 (or 8 plants unlabelled \$2.00).

SPIRAEA "Van Houttei"—As will be seen by the above illustration, there is no finer shrub than this for a hedge or foundation planting, or for a specimen plant, as the branches are completely hidden with snow white flowers from the ground up. The foliage which follows the flowers is fern-like and attractive. Extra large specimen plants, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00; 25 for \$15.00; 100 for \$50.00.

GIANT FLOWERING FOXGLOVES—Grandiflora Hybrids—Striking garden subjects; marvelous color range, all colors assorted. 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.00; 100 for \$17.50.

RUDBECKIA PURPUREA—Hardy, free flowering, excellent for cut flowers or in the garden. Deep rose color. Bloom from July to October. Good for sun or partial shade, in any soil. 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.00; 100 for \$17.50.

HARDY CHRYSANTHEMUMS at greatly reduced prices, choice varieties, singles or doubles, all colors. Plant now for profuse fall blooms. 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.50; 100 for \$20.00.

PINK SHASTA DAISY "Clara Curtis"—Absolutely new, introduced for the first time in 1939. A glowing Pink Shasta Daisy that is sub-zero hardy and disease resistant. Height 18 to 24 inches, with a spread of two feet and literally covered with blossoms. Gorgeous in the garden and superb for cut flowers. Flowers during August, September, and October. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$22.50.

DOUBLE SHASTA DAISY "Marconi"—This is one of the most glorious of all flowers, both as a cut flower and for garden effect. It is a real "find" for florists. Large flowers, freely produced from early summer until killed by frost. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00; 25 for \$12.50; 100 for \$45.00.

"MAYFIELD GIANT" SINGLE SHASTA DAISY—These Shasta Daisies are the largest and most gorgeous I have ever seen. Huge, stunning flowers 5 to 7 inches across, produced in the greatest profusion. Superb for cutting or garden effect. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 100 for \$25.00.

A Full Grown Apple Tree in All Its Spring Glory. A Full Grown Tree Will Produce Several Barrels of Apples Each Year.

Walnut Tree and Nut

Butternut

"RAMSEY" FIG TREE—A new and greatly improved Hardy Fig Tree offered by me for the first time. Earliest to bear, hardiest, prodigious bearing. Usually produces fruit the first year planted. The fruit is of delicious flavor and as large as a pear. Hardy and will grow like the one below right in our northern states. Produces huge quantities of fruit all summer long. If you have never eaten fresh figs, picked right off your own trees, you have a pleasant surprise coming to you; and as a desert, sliced and served with cream, there is no more delicious delicacy. The illustration below shows a tree after the leaves have dropped in the fall and a crop of fruit is still hanging on the tree. Trees that are ready to bear. \$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.

"MIRACLE" BUSH CHERRY—This new bush cherry, illustrated above as it blossoms in the springtime, is the result of 40 years cross breeding. The fruit is large and delicious to eat from the bush and makes a wonderful jam of superb flavor and richest color imaginable. The bush branches from the ground up and is literally covered with its delicious fruit all along the full length of the twigs and branches, just as it is covered with attractive snow-white blossoms in the spring. The blossoms are followed by silvery green foliage, turning to rich red and gold in the fall, so that the bush is always highly ornamental. They are superb as a hedge or foundation planting, or as specimen shrubs placed anywhere in the garden. The fruit of course may all be picked without the use of a ladder. They are hardy from coast to coast and from the Gulf of Mexico right into Canada. The strong plants I will send are bearing size and will produce many times their cost in delicious fruit each season.

\$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.
